---

### **PROFILE SUMMARY**

A dynamic, curious and open minded Junior Software Developer with a passion for Full stack programming. Experienced in Software Development with a demonstrated skill-set acquired from Moringa School. Skilled in front-end development technologies, that is HTML5, CSS, Javascript, JQuery and Angular . Also skilled in Back-end development technologies which are Python Django and Python Flask framework. I recently graduated from Maseno university with a degree in BSc Soil Science with IT.

### **PROJECTS SUMMARY**

- ◆ **Blogs**

This is a website where bloggers can post their blogs

✕ Project Live Link---- <https://bravoblogs.herokuapp.com/>

- ◆ **Awards**

This is an application that will allow users to post projects that they have created and get it reviewed by his/her peers on a scale of 1-10 based on design, usability and content.

✕ Project Live Link---- <https://bravoawards.herokuapp.com/>

- ◆ **Piazzagallery**

This is a site that is a collection of pictures from different categories. It allows a user to search for a picture depending on the category and location the image was taken.

✕ Project Live Link---- <https://photographs.herokuapp.com/>

- ◆ **Kims feedback form**

Kims feedback form is one of the group projects. I had fun collaborating in that showed great teamwork. This is a feedback form to give to your clients or add to your website so that they can give you their opinion on your service.
